

HER

1206

Identification

Genus	Species	Subspecies	Strain
Paenibacillus	polymyxa		L

Aliases

Growth conditions

<i>Temp.</i> 30	Medium TSA	Aerobic/Anaerobic	Agitation	Other CaCl2 1mM ou MnCl2 0.01mM
-----------------	---------------	-------------------	-----------	---------------------------------------

Lysogeny

Phage sensitivity

HER 206 (SPy-2) HER 246 (IPy-1) HER 379 (Spy-3)

Reference

Line, M.A., and M.W. Loutit. 1971. J. Gen Microbiol. 66:309-318.

Remark

Fixes nitrogen efficiently.

History

History **Received from** Date Lycu Seldin, New York 03-16-1984 Received from **Date** Dr M.W. Loutit, Department of Microbiology, University of Otaga, Medical School, P.O. Box 913, Dunedin, New Zealand Isolated by **Date** 1970 Dr. M.W. Loutit, Department of Microbiology, University of Otago, Medical School, P.O. Box 913, Dumedin, New Zealand
