

HER number
13

Identification

Name 13	Morphotype C1	Other designations
------------	------------------	--------------------

Taxonomy

Realm <i>Duplodnaviria</i>	Kingdom <i>Heunggongvirae</i>	Phylum Uroviricota	Class <i>Caudoviricetes</i>
Order	Family <i>Fredfastierviridae</i>	Genus <i>Jamesmcgillvirus</i>	Species <i>Jamesmcgillvirus</i> jv119X

Images

Electron Micrograph	Image description
---------------------	-------------------

Characteristics Plaques 0.5 mm, veiled	Genomic sequence Activated
---	-------------------------------

Propagation conditions

Bacterial hosts
1013
