

*HER number*  
102

## Identification

<i>Name</i> ?6		<i>Morphotype</i> E2	
<i>Order</i>	<i>Family</i> Cystoviridae		<i>Species</i> Cystovirus phi6

*Other designations*  
phi 6, phi6

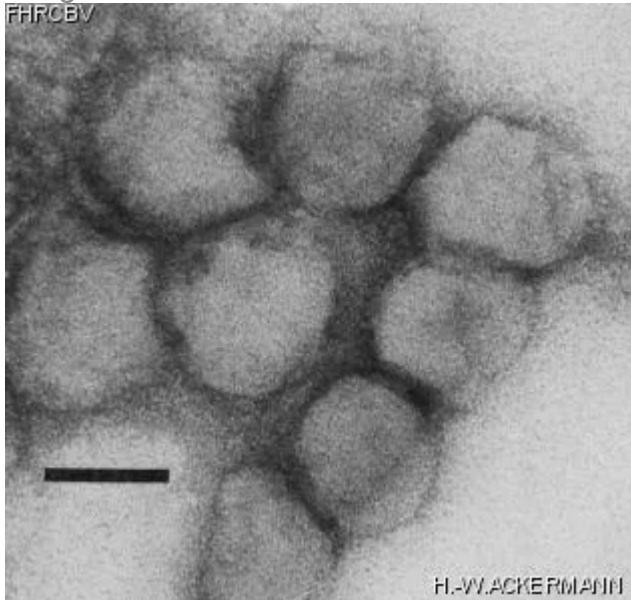

## Taxonomy

<i>Class</i>	<i>Realm</i>	<i>Kingdom</i>	
--------------	--------------	----------------	--

## Images

*Electron Micrograph*

*Image*  
FHRCEV

*Image description*

Magnification: 297,000X

Bar: 50 nm

Staining: UA

*Characteristics*

Plaques: 0.5- 2.5mm, veiled, halo.  
Envelope, lipids, 2-RNA.

*Genomic sequence*

Activated

## Propagation conditions

*Bacterial hosts*

[1102](#)
