UNIVERSITÉ	
------------	--

HER number 133			
Identification			
Name Wb		<i>Morphotype</i> C1 (Podophage)	
Order	Family ?1		Species Perisivirus Tb
Other designations W, Weybridge			
Taxonomy			
Class	Realm	Kingdom	
Images			
Electron Micrograph Image FHIRCEUT INCEUT		Image description Magnification: 297,000X Bar: 50 nm Staining: PTB	
<i>Characteristics</i> Plaques: 0.5 - 1.5mm, clear, sloping borders. Class 3 Pathogen. Incubation : 36h.		Genomic sequence Activated	

Propagation conditions

Bacterial hosts
<u>1133</u>

Reference

Morris, J. A. and M. J. Corbel. 1973. Properties of a new phage lytic for *Brucella suis*. J. Gen. Virol. 21:539-544.

Remarks

History

<i>History</i> Isolated by K. Glowinska, Central Veterinary Laboratory, Weybridge. From:	Date 1969	
Received from M. J. Corbel, FAO/WHO Collaborating Centre for Reference and Research on Brucellosis, Ministry of Agriculture, Fisheries and Food, Central Veterinary Laboratory, New Haw, Weybridge, Surrey, England, KT15 3NB	Date 22-06-1982
