

HER
1596

Identification

<i>Genus</i> Brevibacterium	<i>Species</i> aurantiacum	<i>Subspecies</i>	<i>Strain</i> SMQ-1335
--------------------------------	-------------------------------	-------------------	---------------------------

Aliases

Growth conditions

<i>Temp.</i> 23	<i>Medium</i> Elliker	<i>Aerobic/Anaerobic</i>	<i>Agitation</i> Oui	<i>Other</i> 0.5% NaCl
--------------------	--------------------------	--------------------------	-------------------------	---------------------------

Lysogeny

Phage sensitivity

HER 596 (AGM1)
