

HER number
99

Identification

Name 99	Morphotype A1 (Myophage)	Other designations 37
------------	-----------------------------	--------------------------

Taxonomy

Realm <i>Duplodnaviria</i>	Kingdom <i>Heunggongvirae</i>	Phylum Uroviricota	Class <i>Caudoviricetes</i>
Order	Family	Genus	Species

Image description

Characteristics
Plaques: 0.5- 1mm, clear, halo.

Genomic sequence
Activated

Propagation conditions

Bacterial hosts

1098

Reference

Paterson, W. D. 1968. Some bacteriophages specific for *Aeromonas salmonicida*. M.Sc. Thesis, University of Guelph, Ont. Canada.

Remarks

History

History

Received from

W. D. Paterson,
Connaught Laboratories Ltd.,
1755 Steeles Avenue W.,
Willodale, ON,
Canada, M2R 3T4.

Date

13-04-1982

Isolated by

W. D. Paterson,
Department of Microbiology,
Ontario Agricultural College,
University of Guelph.

Date

14-06-1967

Source

Water, trout hatchery, Near Lake Erie, Southern Ontario, Canada.
