

Numéro HER
251

Identification

| | | | |
|--------------|-----------------------------|---------------------|--|
| Nom φBA-1 | Morphotype A1 (Myophage) | Autres désignations | |
|--------------|-----------------------------|---------------------|--|

Taxonomie

| | | | |
|---------------------------------|--------------------------------|----------------------------------------------|---------------------------------|
| Domaine <i>Duplodnaviria</i> | Règne <i>Heunggongvirae</i> | Embranchement Uroviricota | Classe <i>Caudoviricetes</i> |
| Ordre | Famille | Genre | Espèce |

Image

Description de l'image

Magnification: 297,000X

Bar: 50 nm

Staining: UA

| <p><i>Caractéristique</i></p> <p>Plaques of 0.5mm, target-like.</p> | <p><i>Séquence génomique</i></p> <p>Désactivé</p> | | | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|----------------------|-------------|---------------------------------------------------------------------------------------------------------------------------------|------------|-------------------------------------------------------------------------------------------|---------------------------|
| <p>Conditions de propagation</p> | | | | | | | |
| <p><i>Hôtes bactériens</i></p> <p>1251</p> | | | | | | | |
| <p><i>Référence</i></p> <p>Ito, S-I, T. Nishimune, M. Abe, M. Kimoto, and R. Hayashi. 1986. Bacteriocin-like killing action of a temperate bacteriophage ?BA1 of *Bacillus aneurinolyticus*. J. Virol. 59: 103-111.</p> | | | | | | | |
| <p><i>Remarque</i></p> <p>Lysate contains A1-type phages and contractile tails produced by the propagating strain.</p> | | | | | | | |
| <p>Historique</p> | | | | | | | |
